

Splitting Up

The Vibrators

It's been a long time honey all things come to an end
There ain't no need to cry I'll always have you as my friend
Had some funny times had some funny days
Time is just standing still and it's all just slippin' away

Baby I'm splittin' up

Had some funny times had some funny days
Time is just standing still and it's all just slippin' away
Pull myself together life goes on and on
I'm out on the street and I'm lookin' for a new someone

Baby I'm splittin' up
