

# Exorcism of Youth

## The View

Sitting in a sauna  
Swimming in the sea  
Lying in front of a tall tall tree  
Just so you know I read it in an essay  
Sent it to red because it referenced the dream machine

I hope you make it to another place  
Never throw away another rainy day  
Looking into fire can always lead  
To better days

The exorcism of youth  
The exorcism of youth  
The exorcism of youth

Alpha brain waves  
Really amend the dull days  
Want you to have it  
The pressures in the party  
I hope your head's clear  
Not running on the dull fear  
You need a melody  
To save yourself from all the tears

I hope you make it to another place  
Never throw away another rainy day  
Looking into fire can always lead  
To better days

The exorcism of youth  
The exorcism of youth  
The exorcism of youth

Sickness of the soul  
Good times coming  
Next time, look out for the warning  
Time can take its toll  
But life keeps moving  
So does the world, it's so very soothing  
Sickness of the soul  
Good times coming  
Look out for the warning  
Look out for the warning
