

Footprints in the Sand

The View

I leave it in the ground
Keep us safe and sound
I keep it in the ground
I keep it in the ground

So we can watch the world spin 'round
Keep us safe and sound
So we can watch the world spin 'round
I keep it in the ground

Who's streets?
Our streets
Who's land?
Our land

As the waves crash in
Like a big brass band
And wash our footprints from the sand

I keep the trees please
Rain forests and the breeze
The lungs of the planet
That makes us the disease

I keep the trees please
Rain forests and the breeze
The lungs of the planet
That makes us the disease

Who's streets?
Our streets
Who's land?
Our land

As the waves crash in
Like a big brass band
And wash our footprints from the sand

As the waves crash in
Like a big brass band
And wash our footprints from the sand

As the waves crash in
Like a big brass band
And wash our footprints from the sand

As the waves crash in
Like a big brass band
And wash our footprints from the sand

As the waves crash in
Like a big brass band
And wash our footprints from the sand
And wash our footprints from the sand
And wash our footprints from the sand
