

# Neon Lights

## The View

These neon lights are heavy  
There like laser beams  
Cutting up a city  
Bursting at the seams  
Selling pain as pleasure  
Nightmares as a dream  
Behind closed doors  
The cat don't always get the cream

So so so many people  
So why only one throne  
So so so many people  
So why so all alone

These neon lights  
They shine so bright  
These neon lights keep us up at night  
These neon lights they shine so bright  
They keep us up at night

Its a sad sad sad sad situation  
These fools walk the street  
Never mind running the nation  
Stealing our collective concentration  
Causing nothing but frustration

So so so many people  
So why only one throne  
So so so many people  
So why so all alone

These neon lights  
They shine so bright  
These neon lights keep us up at night  
These neon lights they shine so bright  
They keep us up at night

So so so many people  
So why only one throne  
So so so many people  
So why so all alone

These neon lights  
They shine so bright  
These neon lights keep us up at night  
These neon lights they shine so bright  
They keep us up at night

These neon lights  
They shine so bright  
These neon lights keep us up at night  
These neon lights they shine so bright  
They keep us up at night

These neon lights they shine so bright  
They keep us up at night

These neon lights they shine so bright  
They keep us up at night

These neon lights they shine so bright  
They keep us up at night
