

Voodoo Doll

The View

Oh oh woah oh oh woah oh oh oh oh oh oh
Oh oh woah oh oh woah oh oh oh oh oh oh

Take out the pins from your voodoo doll
And blame it on another man
Or ride another waltzer if my turning you
Is driving you a little mad
Take out five rounds from your revolver
And remember to leave in one
Pointless when you're stropping around
Better with a loaded gun

Take another pig from the shit
Write your pretty name on it
Take another pig from the shit
And write your pretty name on, your dirty, pretty name on

These high-low feelings are keeping me warm
These tall halled ceilings are doing me wrong
These high-low feelings are keeping me sweet tonite

Bet on all the horses with me
And laugh when we don't reap the rewards
Or take a trip from bad company
And sit around and watch me explore

Take another pig from the shit
Write your pretty name on it
Take another pig from the shit
And write your pretty name on, your dirty, pretty name on

These high-low feelings are keeping me warm
These tall halled ceilings are doing me wrong
These high-low feelings are keeping me sweet tonite
Oh, tonite, woah

Take out the pins from your voodoo doll
Take out the pins from your voodoo doll
Take out the pins from your voodoo doll
Take out the pins from your voodoo doll

These high-low feelings are keeping me warm
These tall halled ceilings are doing me wrong
These high-low feelings are keeping me sweet tonite

These high-low feelings are keeping me warm
These tall halled ceilings are doing me wrong
These high-low feelings are keeping me sweet tonite

High-low feelings keeping me warm
Pick me up and make me strong
High-low feelings keeping me warm
Pick me up and make me strong
High-low feelings keeping me warm
Take me up and make me strong
High-low feelings keeping me warm
Take me up and make me strong

Oh oh woah oh oh woah oh oh oh oh oh oh ah
