

## Witches

The View

Witches work only with magic  
And waiting on adulthoods tragic,  
Pull the cover over one more time,  
Stab us in the back your trademark crime,  
It's never fine

Scratch your fingernails right down the blackboard  
Abuse your manicure why don't you,  
Whoah oh!  
And paperclips can bend and shape my dear,  
Cause they are cheaply manufactured  
Just like you, whoah oh!  
(A big bar of chocolate)

Witches work only with magic,  
And waiting on adulthoods tragic,  
You can turn me into stone  
Cause a worthless snake sits in her throne,  
All on her own

Witches work only with magic,  
And waiting on adulthoods tragic,  
Don't come down lookin' for me  
Cause I'm 22, and on tv,  
Oh can't you see  
You won't get me (2x)

So don't you try to scare me so  
With your purple eyes and square toes,  
My mother warned me about you  
You're not as bad as you look  
And I found you in a book  
(Snakes like little boys)

Witches work only with magic,  
And waiting on adulthoods tragic,  
Pull the cover over one more time,  
Stab us in the back your trademark crime,  
It's never fine

Witches work only with magic,  
And being bold sometimes is tragic,  
If you're livin' in witches lane  
You only have your parents to blame  
Stay away, stay away from me!
