

## Ladybug

The Vines

Love what have you done to me  
She came in upon a summer breeze

Throw it away and never know  
Nothing to taste when you're alone  
I got the world and I don't need  
No ladybug

Home is where I wanna be  
Ladybug quit crawling on my knee

Throw it away and never know  
Nothing to taste when you're alone  
I got the world and I don't need  
No ladybug

Nothing to say nowhere to go  
Stuck in a maze when you're alone  
I got the world and I don't need  
No ladybug
