

Empty Space

The Vintage Caravan

I don't know where I am
Or where I am going
But way back on the road again
It was nice to, meet you my friend
But will I ever see, you again
It seems like so long since I saw your face
Well in my heart there's an empty space

It seems like so long since I saw your face
Well in my heart there's an empty space
Well I keep trying to run from this fact
But you are, the one for me
All those lonely nights I spent thinking of you
Wondering if your love, walks through
