

Five Months

The Vintage Caravan

I feel on fire when I'm out of my mind
In the night time
Skin so tight, the feelings is right
It's going for you
The clouds stay clear
And the moon is high above us
The moment draws near, I'm feeling sincere
I'm telling you
We're going for a ride
We're going for a ride
The feeling is right
We're going for a ride

You turn your back and walk away
Walk away
I thought we were going all the way
All the way
You turn your back and walk away
Walk away
I thought we were going all the way
All the way

We got in late
Left the world behind at the right time
I closed my door
Feeling groovy tonight
Put on some A.M.
The boiling heat makes us all go out
And the Earth go round
You look at me
Quietly
Say good night
Are we going for a ride?
We ain't going for a ride
Is the feeling all right?
The feeling ain't aright

You turn your back and walk away
Walk away
I thought we were going all the way
All the way
You turn your back and walk away
Walk away
I thought we were going all the way
All the way
