

# Kill The Messenger

The Virginmarys

Drown that mind so wild at war  
And still there's things you can't ignore  
Shoot the messenger  
Kill the messenger

Force-fed fear washed down with shame  
As history repeats again  
Shoot the messenger  
Kill the messenger

They're in your dreams  
They're in your head  
Beneath the sheets inside your bed  
The influence is always passing through  
They're in the choice  
They're in the rules  
They're in the news inside the schools  
They can't be held responsible  
Can't be held responsible for you

On the brink upon the shelf  
We think we think for ourselves  
Shoot the messenger  
Kill the messenger

A baby's born the air is thin  
We're poisoning the oxygen  
The righteous path is always how we do  
Control behind a minister  
Is something far more sinister  
They can't be held responsible  
Can't be held responsible for you

Kill the messenger

The time has come to stop the clocks  
Find a key or pick the lock  
It's time to step outside the mind  
Time to step outside the mind

They're in your dreams  
They're in your head  
Beneath the sheets inside your bed  
The influence is always passing through  
They're in the choice  
They're in the rules  
They're in the news inside the schools  
They can't be held responsible  
Can't be held responsible for you  
For you
