

## Keep Walking

The Virus

When I stumble and start to fall,  
I take a look at the flyers up on my wall.  
I think of what my life's become.  
All the things that I have seen.  
All the things that I have done.

My friends they carry me along.  
When they grow tired that's when I get strong.  
And everyone that tried to hold us down  
My friends and I we pull each other  
Up off the ground.

We keeping on walking, not alone  
We keeping on walking, one day you're gonna be strong  
We keep on... we keep on  
Walking on

My friends they carry me along.  
When they grow tired that's when I get strong.  
And everyone that tried to hold us down  
My friends and I we pull each other  
Up off the ground.

We keeping on walking, not alone  
We keeping on walking, one day you're gonna be strong  
We keep on... we keep on  
Walking on
