

Den Haag

The Walker Brothers

It's raining in the back seat of my cadillac
Dolly's sitting in the white wet
Someone hung a coat on a statue of Christ
And I called for a drink and a vet

Den haague
Den haague
You scare me good
Den haague
Den haague
You scare me

We were taken from behind by some flesh jabs
Two litres really make you move
Look out for the muff king with a big black whopper
In a two way mirror mood

Den haague
Den haague
You scare me good
Den haague
Den haague
You scare me

(Some other time)
(Some other where)
Baby, you might care
(Some other time)
(Some other where)
Baby, would you dare?

Den haague
Den haague
You scare me good
Den haague
Den haague
You scare me

No lie
No lie
