

## Looking For Me

The Walker Brothers

I walk through the streets of the city  
As quiet as quiet can be  
The boys on the corner are looking for a fight  
And all of 'em looking for me  
I can't help it if I love her  
She can't help loving me  
But she was Eddie's girl and he's got a lot of friends  
And all of them looking for me  
Never ran from trouble, don't intend to start now  
But a fight's a-comin', now I'll face it somehow  
Gotta get on by him, find my baby and then  
Go to a place where no-one knows our face  
And start all over again  
I walk through the streets of the city  
As quiet as quiet can be  
The boys on the corner are looking for a fight  
And all of 'em looking for me  
Yeah... all of 'em looking for me  
Yeah... all of 'em looking for me...
