

## The Girl I Lost In The Rain

The Walker Brothers

Last night I walked through town  
The rain was tumbling down and I could hardly see  
I just lost my heart  
I gave it from the star she made a fool of me

Now and then a light, filled the misty night  
Though my heart was filled pain  
That's when I first saw the girl I lost in the rain

You were standing there, with raindrops in your hair  
Your smiling face aglow, it gave me such a thrill  
It burns within me still, I know

I never heard a sound but when I turned around  
You suddenly were gone  
I know should forget, I tell myself and yet  
Your memory lingers on

Even if I tried, searching far and wide, all would be in vain  
For I could never find the girl I lost in the rain  
I could never find, the girl I lost in the rain
