

## Louisiana

The Walkmen

Louisiana  
Come go away with me  
We'll take the highway  
I'll see you in between

I listen to my head  
And every word have come  
It's been two days without it  
The sleeping in the sun, hey

Crossing through Tennessee  
Watching the sunrise  
Thinking about a dream  
Well, we'll listen all night

To the footsteps in the hall  
There's thunder and there's lightening  
A hundred miles off

I got my hands full all summer long  
I got my hands full  
I got my hands full

Louisiana  
Come go away with me  
Drinking our coffee  
Under the canopy

Never saw a morning  
I slept through half a day  
There's thunder and there's lightening  
A hundred miles away, oh

I got my hands full, oh summertime  
I got my hands full  
I got my hands

Da da da da da  
Da da da da da
