What's in It for Me

The Walkmen

What's in it for me I came here for a good time and you're tell ing me to leave but you don't have to say it again, I heard you the first time

We're counting on you well I like to remember it like that When we had one in the hand, that was one in the hand but you never come over any more

So you don't have to say it again, I heard you the first time
