

Change

The Walters

I've been living on the edge
So tired of making sense
Of everything that's wrong
We've only got one life
You gotta do what's right
And let go what's been gone

Change
It doesn't come fast
Change
It doesn't come fast enough and
Pain
It never goes away
Pain
It never heals fast enough

I'm so troubled by my past
I can't escape the facts
I can't outrun the truth
The weight's still hanging on my back
It never seems to pass
One day you'll love me back

Change
It doesn't come fast
Change
It doesn't come fast enough and
Pain
It never goes away
Pain
It never heals fast enough
