

# Running Around

The Walters

I've been running around, my head in the clouds just looking down  
You've been chasing your dreams across an endless sea, finally free  
I know you're so far away but I see your face, I still see your face  
One day I'll meet you back home where we first laid eyes, do you remember that night?

Keep me running right back to you  
Keep me running right back to you  
Keep me running right back to you  
Don't worry baby, we'll be there soon

Someday, you and me, we're gonna figure out what we're meant to be  
Till then we'll be roaming along, walking on our own, singing different songs

Keep me running right back to you  
Keep me running right back to you  
Keep me running right back to you  
Don't worry baby, we'll be there soon

Our love, love we'll be worth all of the years that we've been waiting (waiting)  
And love, love only works if it's you and I together, baby  
Our love, love we'll be worth all of the years that we've been waiting (waiting)  
And love, love only works if it's you and I together, baby

I don't know how this will end, how this will end (If it's you and I together, baby)  
All I see is you in the end, it's us in the end (If it's you and I together, baby)
