

All Over Me

The Wannadies

I need you more than ever
If there's more of you I want another
Might sound strange to you
Sounds good to me
I want more of you all over me
All of you over me

They say your love is not forever
You can't both eat the girl and have her
Might be true for you it's not for me
I want more of you all over me
Want all of you all over me

If you're first prize I'm a winner
If you're not God then I'm a sinner
I'm enslaved by you, be good to me
Pour all of you all over me
Pour all of you all over me
Over you over me

I want all of you all over me
I want all of you all over me
All of you over me
Over you over me
A go go go go!
