

# Can't Kill the Musikk

The Wannadies

Turn on the radio and fall in the love  
It's the eternal light that shines from above  
A kiss and hug and then a push and shove

You can't kill the musikk  
Pop the rock  
Can't make a good thing stop  
No, you can't kill the musikk  
Pop pop pop  
Can't make a good thing stop

It's heavy metal - silver and gold  
It's raw and dirty - it's young and it's old  
It's pure and magical - Satan with soul!

You can't kill the musikk  
Pop the rock  
Can't make a good thing stop  
No, you can't kill the musikk  
Pop pop pop  
Can't make a good thing stop
