

Love Is Dead

The Wannadies

The sky is blue
and I love you
so she said
now love is dead

In fields so green
I lost my way
I lost that dream
I had one day

Another place
Another time
I know you'll be mine

Another time
Another year
I'll wake up without fear of you

We used to grow
Like we were told
now we all just grow old

All this time
these dreams of mine
fell apart
it broke my heart

Another place
Another time
I know you'll be mine

Another time
Another year
I'll wake up without fear of you
