

EVOLVE

The Warning

You don't know how bad it'll get
A simple moment to forget
I'm not in danger
I'm the danger
Gold shall not define your worth
It's not destruction, it's rebirth
I'm not in danger
I'm the danger now
Show me what it means to change

Help me become something
More than just a vessel in disguise
Pain is the price to survive
To evolve

Dry my tears 'cause I'm a weapon
Weapons never weep
I'm not in danger
I'm the danger
Start the clock and keep it running
It's the one to beat
I'm not in danger
I'm the danger now
I'll show you what it means to change

Help me become something
More than just a vessel in disguise
Pain is the price to survive
To evolve

Help me become something
More than just a vessel in disguise
Pain is the price to survive
Is it wrong or right
To evolve?
