

SHOW THEM

The Warning

I don't walk with my head down anymore
I won't be the one to let you get your way
What makes you think I even care what you say about me?
I know who I am- I'll stay the same

You can't do it
I am saying no
If you don't try, you'll never know
Stand up go

Going against the plan, show the world you can always shine brighter
When you take a stand and you know you can always fly higher
I'm here
I'm here
Go show them all now

I'm done with playing nice at games that try to change me
Better bet I am the one who throws the dice
Win or lose it's all on me
I get to choose my victory
It's my life I hold the keys

No more waiting
Stand up take it
Right now, go!

Going against the plan, show the world you can always shine brighter
When you take a stand and you know you can always fly higher
I'm here
I'm here
Go show them all now

Going against the plan, show the world you can always shine brighter
When you take a stand and you know you can always fly higher
I'm here
I'm here

Scream out what you want there's no point in hiding to fake it
You know who you are- let them know that they'll have to take it
I'm here
I'm here
Go show them all now
