

# Take Me Down

## The Warning

I once woke up and I felt like rising hope  
When I see the light shine down on me  
I like to be in the summer breeze  
Trying to keep the strength in me

The light of day and dead of night  
Fire and ice

I knew you were gonna take me down  
Oh no, you're gonna take me down

I felt alone, I was going down  
In the dark, always feeling scared  
It's so unfair you make me feel this way  
I need to turn it all around

The light of day and dead of night  
Fire and ice

I knew you were gonna take me down  
Oh no, you're gonna take me down  
I knew you were gonna take me down  
Oh no, you're gonna take me down

Oh, I can't take this pressure anymore  
Must have hope, I can't give up  
Oh, staring down at broken glass  
I'm alive and I survive

I knew you were gonna take me down  
Oh no, you're gonna take me down  
I knew you were gonna take me down  
Oh no, you're gonna take me down
