

Wildfire

The Warning

We're a wildfire
They try to shut us down
We're the high flyers
They try to pull us back on the ground
We're the restless
The ones who can't sleep at night
I say it's time for a change
Say it's time we fight

Will you fight with me until the very end?
'Cause now that we're re-primed, they don't respect our rights
We stepped out of time, we drew outside the line
They didn't like us, so they left us here to die

We're a wildfire
They try to shut us down
We're the high flyers
They try to pull us back on the ground
We're the restless
The ones who can't sleep at night
I say it's time for a change
Say it's time we fight

Will you join this war to perish or to fall?
Will you stand with me 'til we make history?
Will you risk the climb to earn your wings and fly?
Soar through the sky and be free at last

We're a wildfire
They try to shut us down
We're the high flyers
They try to pull us back on the ground
We're the restless
The ones who can't sleep at night
I say it's time for a change
I say it's time we fight

It is in our grasp, it is so close
But at the same time is far
We will fly free, there'll be no peace
Until things are set right

More wildfires
Until you stand down
The high flyers
Will not be pulled back on the ground
We'll be restless
Until things are set right
We say it's time for a change
And we will win this fight
