

Young And Dangerous

The Wedding

They said that we were worthless,
They said that we were young.
And they said that we should take our place
And learn to bite a tongue.
They said that we were dangerous,
Yeah, they said that we were told
And they said that we would break our necks
If we yell to sing another song.
So come on.

If you're sick of being told you were wrong,
They moved everything inside you, sing along.

We were young and we were dangerous
Never care of what they thought of us,
We were screaming of the days that will come.
We were young and we were dangerous,
Never living in the past of us,
We were screaming at the top of our lungs,
When we were young.

They said that we were hopeless,
Yeah, they said that we were young,
And they said that we should take our place
And tell our time they come.
But I say we are dangerous,
Yeah, I say that we are one.
And I say that with each dying breath
We will never call to give it up.
So come on.

If you're sick of being told you were wrong,
They moved everything inside you, sing along.

We were young and we were dangerous
Never care of what they thought of us,
We were screaming of the days that will come.
We were young and we were dangerous,
Never living in the past of us,
We were screaming at the top of our lungs,
When we were young.
When we were young,
When we were young.

They said that we were dangerous,
Yeah, they said that we were told
And they said that we would break our necks
If we yell to sing another song.
So come on.

We were young and we were dangerous
Never care of what they thought of us,
We were screaming of the days that will come.
We were young and we were dangerous,
Never living in the past of us,
We were screaming at the top of our lungs,
When we were young.
