

## Drive

The Weeknd

I don't want to waste your time  
Just want to feel the air on my body  
And I roll the window down  
Don't ever think I'll be this happy  
You know, I love, adore, know me  
'Cause fame is a disease

And know

I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow

And I feel the sky fallin' down on the road  
Be precious with my heart, drive me slow  
Just be kind, I'm a child again  
And no child is a suffrage

And know

I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow

I don't want to waste your time  
Just want to feel the air on my body  
I'ma roll the window down  
Don't ever think I'll be this happy again  
You'll always be a part of me  
Just turn the key

And know

I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow (I just want to drive)  
I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow  
I just want to drive, I just want to drive tomorrow (I just want to drive)  
I just want to drive, I just want to drive tomorrow (And I just want to drive)  
I just want to drive, I just want to drive tomorrow (I just want to drive)  
I just want to drive, I just want to drive tomorrow
