

Niagara Falls

The Weeknd

Yeah, yeah
With a smile on my face

I used to love you, girl, before the sun goes down
In Niagara Falls, ooh-yeah
Your baby daddy been a scrub, let's keep it hush
Trust me I know, yeah
I remember that you rolled me blunts before we fucked
When I was a ghost (Yeah, uh)
I had you up in the St. Regis just when it was the Trump
I was a boy
Still the kid from the borough, uh
Pull up to the city dolo, uh
You know you can always reach me
Tryna see you with your clothes off
'Cause I know he really loves you, uh
But you tellin' me the next move, uh
'Cause in your head, you're my baby
You're relivin' what we been through, oh

With a smile on my face

I used to hold you, girl, before the sun came up
It was dusk 'til dawn, ooh-yeah (With a smile on my face)
Your ex man tried to end your run, you're a shining star
Trust me I know, ooh, yeah
'Cause I got my finger on the pulse every single time
I've done it before, yeah
But I'll never take the credit 'cause you were bound to shine
I was just a spark
Gave your heart just to borrow
Tried to help you with the sorrow (Sorrow)
You know you can always reach me (Reach me)
'Cause I know you runnin' on low (On low)
And he never really loved you (Loved you)
Tellin' me about his next move (Next move)
'Cause in your head, you're my baby (Baby)
You know who you're really loyal to

With a smile on my face

Oh (Oh)
Oh (Oh-oh)
The sky is burnin' bright
Set my heart on fire (Fire)
Set my heart on fire
I lost my life
Goin' back in time
(Goin' back in time)
