

# Widow

The Weeknd

Widow, widow...

This is a wake, lay your head on my pillow  
By the time you're awake, baby, you'll be my widow  
I taught you how to feel, you thought you never could  
And I taught you how to love, nobody ever would

Tonight I gotta go, somebody's waiting home  
So after tonight's rendezvous, I might as well be dead to you

Widow (ah), widow (ah), widow (ah), widow (ah)...
