

Believe Whatever

The Weeks

Believe in me believe whatever
Don't tell nothing but the time
Everything you said was clever
Nothing more than never mind
Not much of hell inside your hellos
Nothing good about goodbye
The wind it blew the building bellowed
A song I wish that I could write
A song I wish that I could write

I can't believe how this ended up
Happy to be here
I can't believe how this ended up
Headstrong - no fear

Forgive, forget or get the hell out
Time to practice what you preach
I never once have met a sellout
No one gives it up for free
This push and pull has made my hands hurt
Hard to stand up on my feet
This give and take has taken hard work
Hard for you and hard for me
Hard for you and hard for me
