The Weeks

I said, 'Darlin', why so blue? '
She told me, 'I've been missing you'
He said, 'Leave' and she said, 'Stay'
She kissed my lips and quickly ran away

Lost some buttons to my overcoat
Pull your knife away from my throat
She said, 'Smoke your cigarette, I hope you choke'
Kissed my lips and quickly ran away

I shake, I shake, I could never see
How good a young love could really be
I know, I know it's not that bad
Take a look at what we had

You shake, you shake, I could never see
How good a young love could really be
I know, I know it's not that bad
Take a look at what we had

You shake, you shake, I could never see
How good a young love could really be
I know, I know it's not that bad
Take a look at what we had
You shake, you shake, I could never see
How good a young love could really be
I know, I know it's not that bad
Take a look at what we had

Walked you home from the park
Held your hand it was after dark
Hold me close, said she'll always stay
She kissed my lips and quickly ran away

Lost some buttons to my overcoat
Pull your knife away from my throat
She said, 'Smoke your cigarette, I hope you choke'
She kissed my lips and quickly ran away

You shake, you shake, I could never see
How good a young love could really be
You know, I know it's not that bad
Take a look at what we had

You shake, you shake, I could never see
How good a young love could really be
I know, I know it's not that bad
Take a look at what we had

Lost some buttons to my overcoat
Pull your knife away from my throat
She said, 'Smoke your cigarette, I hope you choke'
Kissed my lips and quickly ran away

You shake, you shake, I could never see
How good a young love could really be
I know, I know it's not that bad

Take a look at what we had

You shake, you shake, I could never see
How good a young love could really be
I know, I know it's not that bad
Take a look at what we had

You shake, you shake, I could never see
How good a young love could really be
I know, I know it's not that bad
Take a look at what we had
Take a look at what we had
