

## Gold Don't Rust

### The Weeks

I'm happy here  
I'm glad you came, I can see you smiling  
The lights might dim  
The lights might change we'll be here a while then  
Pour us drinks  
Make us laugh, I'm glad we showed up  
The music's off  
The lights are on  
It's time to load up

And if everyone's okay we'd like to play one more  
It's not for you  
This one's for us  
If we're dancing up on stage and you can see us smiling  
It's because Gold doesn't rust

My eyes roll back  
We jump in crowds and spit on stages  
Some nights we drink  
Some nights we fight, some nights are dangerous  
We sat in cars  
Broken vans or people's houses  
On well cut lawns  
We talked about how beautiful this town is  
Got lost this year  
I hope that makes you happy or something  
These days were rough  
We shake it off like it was nothing  
Some nights got weird  
We'd close the blinds and wait for morning  
Fighting sleep  
The days are long but they're never boring
