

Ike

The Weeks

Too much time and too much talkin'
Use your words, what would you say?
Too much time and too much talkin'
Use your words, what would you say they'll say?
Use your legs but he's not walkin'
Use your nerves, it's better to waive or wait
I can't think too much on this I guess

Just keep your eyes ahead
Just keep your eyes ahead
And the ground keeps movin'
And the ground keeps movin'
Open up your maps and see we're lost and losing

Watch that town destroy his body
The people were crazed and safe
Killin' time with cups of coffee
It's the same damn place we were last May / they'll say

Just keep your eyes ahead
Just keep your eyes ahead
And the ground keeps movin'
And the ground keeps movin'
Open up your maps and see
We're lost and losing
