

# Talk Like That

## The Weeks

Train me how to whistle  
Teach this bird to fly  
Push me right out of my nest  
Baby I'm not scared to die  
Treat me like a wet match  
Or a half lit cigarette  
You know that there's some fire somewhere  
But you ain't found it yet

Night trains, no stops  
Its bad brains, bad cops  
She's nobody's heart throb  
It's funny when she talks like that  
Long life, good run  
Said it takes one to know one  
She's sweet, dumb and handsome  
It's funny when she talks like that

Show me all your card tricks  
Let me look up your sleeve  
Well don't be scared of what's up there  
Baby I'm not hard to please  
Take me to your leader  
To hell with your complaints  
Nothing close to fire and smoke  
We'll make it through these flames

Night trains, no stops  
Its bad brains, bad cops  
She's nobody's heart throb  
It's funny when she talks like that  
Long life, good run  
Said it takes one to know one  
She's sweet, dumb and handsome  
It's funny when she talks like that

Kiss my words  
You can write them on your arm  
Take a breath deep in your chest  
Surrender to my charm  
It's tough and then some  
It's a limp and then a step  
A lot has changed I guess  
I haven't thanked you yet

Night trains, no stops  
Its bad brains, bad cops  
She's nobody's heart throb  
It's funny when she talks like that  
Long life, good run  
Said it takes one to know one  
She's sweet, dumb and handsome  
It's funny when she talks like that  
Long life, good run  
Said it takes one to know one  
She's sweet, dumb and handsome  
It's funny when she talks like that

It's funny when she talks like that
