

Muzzle #1

The Whip

I'm moving for no one
Start moving for me
You can't say what I'm doing
You're not the boss of me
No fooling around now
I'm free of shackles and chains
No more strings attached 'round here
It's time to take a hold of the reigns
I was speaking out in silence
But no one ever heard
Nothing more than whispers cause you're...
Getting in the way
Getting in the way, getting in the way
Getting in the way, getting in the way
Drop the leash, I've been released
I'm standing my ground now
I keep up my defense
My own two feet on the level field
Instead of sitting on the fence
Don't wanna hear voices
Spinning round my head
You can't tell me what to do now no more
I'm keeping it to myself
Well I was backed into my corner
But no one ever saw
Dreams on hold, you pinched them, woke me up
Getting in the way
Getting in the way, getting in the way
Getting in the way, getting in the way
Drop the leash, I've been released
Drop the leash, I've been released
I'm moving for no one
The lights have started shining on in
I'm not giving an inch anymore
'Cause the chances are so slim
Hold my head up high now
I blow smoke in your eyes
Your vision's a blur and a kiss
You're Muzzle #1
Getting in the way, getting in the way
Getting in the way, getting in the way
Getting in the way, getting in the way
Getting in the way, getting in the way
Drop the leash, I've been released
Drop the leash, I've been released
I've been released...
I've been released...
