

Forever Lover

The Whispers

Ooh, yeah
My forever lover
Oh, baby

For so long I've searched for
The kind of love I found in you
I never met a woman
That makes me feel the way you do
You're so special
You mean the world to me
Hope we'll stay together
Together for eternity

I wanna be your forever lover
I'm gonna love you forever
I wanna be your forever lover
Say you'll stay with me
And leave me never
I wanna be your forever lover
Forever, forever together
I wanna be your forever lover
You and I forever

I would never take a chance
Of ever losing you
'Cause what I feel I know is true
My feelings, girl, are true for you
I really need to know what's on your mind
I'm so in love with you, baby
I know if we really try
We could take this love on an endless ride

With you forever
With you till the end of time
Let's stay together
Together forever, together forever
Forever and a day, baby, ooh...

I wanna be your forever lover
I wanna love you forever
I wanna be your forever lover
You and I forever

I wanna be your forever lover
I wanna love you

Forever lover
I wanna love, love, love you, baby
Forever lover

With you forever
With you till the end of time
Let's stay together
Together forever, together forever

I wanna be your forever lover
I wanna love you forever

I wanna be your forever lover
Forever, forever together
I wanna be your forever lover
Say you'll stay with me
And leave me never
I wanna be your forever lover
Wanna be with you
And I hope you wanna be with me too
I wanna be your forever lover
I wanna love you forever and a day
I wanna be your forever lover...
