

# Girl I Need You

The Whispers

We fell in love  
Yet here I am alone again  
But still I know  
We almost made it  
I've tried to forget  
But knowing that we came so close  
I didn't wanna stop  
But how could I know

Feelings have a way  
Of reaching out for yesterday  
Girl, I need you  
I must've been out of my mind  
To ever leave you  
I just can't seem to find myself  
Girl, I need you  
I need you tonight

(I need you now)  
(I need you right now, baby)  
Oh...

And to think your love  
Was not enough  
I didn't realize that you  
Gave me all the love  
You had to give  
(You had to give me)  
Just trust me now  
I know somehow  
Everything will be alright  
Let's try once more  
Don't close the door

Feelings have a way  
Of reaching out for yesterday  
Girl, I need you  
I must've been out of my mind  
To ever leave you  
I just can't seem to find myself  
Girl, I need you  
I need you now

(I need you now)  
(I need you right now, baby)

I can't go another day  
Without your sweet love  
Girl, I was wrong  
For ever leaving you, baby  
But I really, really need you now

(Oh, girl, I need you)  
Here I am without you  
I must've been out of my mind  
To ever, ever doubt you  
Girl, I need you

Girl, I need your good old-fashioned love  
I can't go another day  
I was wrong, baby  
This time I'm here to stay  
Girl, I need you, I need your love  
Must've been out of my mind  
To ever, ever doubt you
