

# How Long

## The Whispers

It's time for change

How long will we argue?  
How long will we fight?  
When will have the unity  
To change the wrong to right?

Don't you know that love is the answer (love is the answer)  
To all our misery? (all our misery)  
Won't you take my hand today?  
Tomorrow we'll be free, oh

(How long) will we take to find ourselves again  
Won't you tell me?  
(Be strong) be strong for the master plan  
For the master plan  
Because there's light  
On the other side of your reality  
With the winds that blow oh for you and me  
And the universe is for all to see, yeah

How long before freedom [?]?  
Tell me, how long before the light?  
How long will the wars go on  
[?]

Don't you know that love is the answer (love is the answer)  
To all our misery? (all our misery)  
Won't you take my hand today?  
Tomorrow we'll be free, oh

(How long) will we take to find ourselves again  
Won't you tell me?  
(Be strong) be strong for the master plan  
For the master plan  
Because there's light (because there's light)  
On the other side of your reality (your reality)  
With the winds that blow oh for you and me (for you and me)  
And the universe is for all to see (for all to see), ooh yeah

Don't you know that love is the answer (love is the answer)  
To all our misery? (all our misery)  
Won't you take my hand today?  
Whoa-whoa-whoa

How long will we fight?  
And how long will we hate? (and how long will we hate?)  
We must see the light (see the light)  
Before it's too late
