

# Suddenly

## The Whispers

Suddenly, though it seems  
You're everything to me  
The way I always knew  
Loving you would be

Ooh, and suddenly, I'm not afraid  
To give love as you gave  
For you've become the light  
That leads the way

By tomorrow  
Our love will have grown  
Even stronger  
And we'll cherish every day  
Like the first day  
We fell in love

And so suddenly, I know we can make it  
With you I've found a reason to try  
And so suddenly, there's no need to change it  
If we never tell each other goodbye

Ooh, and suddenly, you were here  
You understand my fears  
Somehow they disappear  
Whenever you are near

Ooh, by tomorrow  
Our love will have grown  
Even stronger  
And we'll cherish every day  
Like the first day  
We fell in love

And so suddenly, I know we can make it  
With you I've found a reason to try  
And so suddenly, there's no need to change it  
If we never tell each other goodbye

Oh-whoa...

And so suddenly, I know we can make it  
With you I've found a reason to try  
And so suddenly, there's no need to change it  
If we never tell each other goodbye

Oh-whoa...

Let's never even say the words goodbye again  
From now till the end of time  
We can be the best of friends  
Oh, how the sun reminds me of your smile  
Love will keep on ever shining so bright  
And now that we're together  
Love will be the best for you and I...
