

Guiding Light

The White Buffalo

Fumbling to find the answers
Isolation choking the mind
A sickness don't know
When to come when to go
I'm afraid that I'll just stay inside
Streets explode into chaos
Fists and flames and fight
We can't see what we don't want to see
I wish we was all color blind

With a guiding light
A guiding light
A guiding light
A guiding light

We all could use some comfort
Can't you fill us with hope and pride
You keep the people confused with your fake fuckin news
Deliver us darker into the night
With no guiding light
It's like the earth was drenched in gasoline
A canopy blackens the sky...
No sun no stars to fill the night

Where have you gone with my guiding light
A guiding light
A guiding light
A guiding light

Where is my guiding light
