

Problem Solution

The White Buffalo

Tell me what's wrong with my brain
Does it like to be stuck in the drain
Swimming 'till I'm going insane
Do you wanna sit there and complain

Oh, tell me what's wrong with my mind
Does it take me to a place unkind
Chances something I won't find
Does it want to sit there and rewind

Well, they say follow your heart
But it's confused about everything
Does it hide from the truth till it's
The only proof of what heartache brings
What's wrong with your heart

Tell me what's wrong with your heart
Was it cold and beaten from the start
Did it grow older or did it just get smart
Or did you just tear it apart

Oh, tell me what's wrong with my songs
What happens when they don't sing along
When the words and the chords just come out wrong
Where the hell do I belong

Well, they say follow your heart
Well, it's confused about everything
Does it hide from the truth till it's
The only proof for what heartache brings
What's wrong with your heart

'Cause nothing's gonna change
Nothing's gonna come and fix it all I've fell for, it's all I follow
Nothing's gonna change
Nothing's gonna come and break your fall
'Cause life is gonna break your bones

Well, it's a new day
One more chance to step in the light
Sun is out
Feel what it's all about
Well, they come and go
Izolozolete to the dark and light of my mind
But they're so sincere
Triumph and fear
Horsin' n' forcin' their might
Well, you can't live this life straight
So get high
Get gone
Well, I think it's a little too late
To be moving on
No one is a really to say
What's right
What's wrong
So let's just get through the day

Maybe a new way
To get more fists for the fight
Fight or flight
I recheck the metre but the metre was right
When the dance is done
Well, still nobody wanna live in no paradise
Just bumpin' bills and bad advice
At least you took the time to take the transcendental ticket to right

Well, I can't live this life straight
I get high
I get gone
Well, I think it's a little too late
To be moving on
Who's really able to say
What's right and what's wrong
So let's just get through the day
So let's just get through the day
Let's just get through the day
Let's just get through the day
Let's just get through the day
