

## The Getaway

## The White Buffalo

Keep your head down for now, cut the light  
Just 'til we get out of town and I find  
Find a place to hide

Follow me away from the light, through the pines  
There's a clearing there up on the right, out of sight  
Where we'll crash for the night

Behind us the damage is done, no one can erase  
Love has no ending, just a resting place  
But there's a place in the dark, in the black where the deals are made  
I ain't your partner, I am your slave

Everything will be alright by my side  
There ain't a word in my mind to describe  
You and I

There's a trail of tears and love, no one can erase  
Love has no end, take it to the grave  
There's a place in the dark, in the black where the demons are made  
But I ain't your partner, I am your slave

Keep your head down for now, cut the light  
Just 'til we get out of town, and I find  
Find a place to hide

'Til I find a place to hide
