

## The Curse Stops Here

The Whitlams

Stevie left on a Friday too  
They made the easy way look hard  
We never thought too much about letting go  
They took it all too far again

My first days back and I was rolling round the town  
Saying stay away from edges and from ropes if you can  
'Cause I am the last one...  
And the curse stops here  
The curse stops here

Ghosts don't drag you towards their light  
They make it brighter here for you  
Seeing Stevie helped me through from over there  
But will his friend now help him out?

My first days back and I was rolling round the town  
Saying stay away from edges and from ropes if you can  
My friends said I was saying it, too many times  
Leave the gallow humour for the gallow people that it finds

'Cause I am the last one...  
And the curse stops here  
The curse stops here
