In the City

Come along Into the city Where the girls are pretty And you can't go wrong

Take your time No need to hurry Don't have to worry Cause it won't take long

Well you can surf in the city You can swim in the pools Do anything you want Because there ain't no rules Drive your super-stock carbur to the long highway And you can drag.

In the city in the falling right The kids are hip and they can dance all night In the city all the girls are pretty and they go...
