

## Fire

## The Wild Feathers

All I've ever done is try  
To make loving you look easy  
You look me in the eye  
And say you don't believe me  
I'm out here in the cold  
I'm standing in the dark  
You can't feel the flames  
If you can't find a spark

I want a fire  
To burn through the rain  
Higher and higher  
In the winds of change  
And I wanna feel  
Every ounce of pain  
When the smoke clears  
Only love remains

So I'll be on my way  
I don't know where I'm going  
But you should do the same  
'Cause there's no way of knowing  
Who I never was  
And who you really are  
You can't feel the flames  
You can't find a spark

I want a fire  
To burn through the rain  
Higher and higher  
In the winds of change  
And I wanna feel  
Every ounce of pain  
When the smoke clears  
Only love remains

I was gonna take my time  
Wasn't in a hurry  
But someone changed my mind  
And vision gotten blurry  
I could barely breathe  
Started to choke  
But now I believe  
That where there is smoke

There's fire  
Burning through the rain  
Higher and higher  
In the winds of change  
I can feel  
Every ounce of pain  
And when the smoke clears  
Only love remains  
And when the smoke clears  
Only love remains
