

## Love Make A Fool

The Wild Reeds

Let love make a fool out of me  
This one time - please, just let me be  
I've never known how to get both feet off the ground  
Let love make a fool out of me

Let's say; love can set you free  
I'm a believer, until I get cold feet  
I just want someone to hold me  
Without looking over my shoulder  
Let love make a fool out of me

I just sit by the phone and pretend I'm not home  
Pace the floor 'til you knock on my door  
If I could know what it's like to just lose my mind  
Maybe, my heart could win this time

Once I got it, don't take it from me  
I've found a good one - please, just let me be  
He's got eyes like the night and hair like the sea  
Let love make a fool out of me

My lips grow cold, and my eyes tend to wander  
I choke on my words, and my hands start to falter  
I've never known how to get both feet off the ground  
But if I could, I'd love you like I should

I just sit by the phone and pretend I'm not home  
Pace the floor 'til you knock on my door  
If I could know what it's like to just lose my mind  
Maybe, my heart could win this time

Now I got him; don't take him from me  
Found a good one - please, let me believe  
That it could save me this time  
Salvation would be mine  
Let love make a fool out of me  
Let love make a fool out of me  
Let love make a fool out of me
