Hit It on the Head

The Wildhearts

Got a bad place it's bringing me down
In a suitcase my life can be found
Gotta wait another night without you
On a high road I walk it alone
Go to bed with my girl on the phone
It's like, man, you got nothing better to do

'Cause you hit it on the head with all the things you said
Like I gotta get a message to you
'Cause you hit it on the head with the funny things you said
Like I know what I gotta do
I'll see you far away

So it feels like I'm running around
All the troubles are wearing me down
Gotta wait, another month? Give me a clue
When I can't take this crap anymore
I just fall down, I'm hitting the floor
It's like, man, you got something better to do

'Cause you hit it on the head with all the things you said
Like I gotta get a message to you
'Cause you hit it on the head with the funny things you said
Like I know what I gotta do
'Cause you hit it on the head with all the things you said
Like I gotta get a message to you
'Cause you hit it on the head with the funny things you said
Like I know what I gotta do

Got a long way to go and a shitload to pay
Got a long way to go and a shitload to pay
Got a long way to go and a shitload to pay
Got a long way to go and a shitload to pay

'Cause you hit it on the head with all the things you said
Like I gotta get a message to you
'Cause you hit it on the head with the funny things you said
Like I know what I gotta do

Got a long way to go and a shitload to pay
Got a long way to go and a shitload to pay
Got a long way to go and a shitload to pay
Got a long way to go and a shitload to pay

I'm fading now I must confess
I'm fading now I must confess
I'm fading now I must confess
I'm fading now I must confess
