

Let My People Go

The Winans

Oh Pharoah was so evil
In slaying God's most precious creations
A wicked adn hard taskmaster
Applying suffering everyday

They said "how long can this go on
For our backs are about to break"
Father replied, "I heard your cry
And I'll make a way for your escape"

Lead
Now if I have to part the sea
To set my children free
(These are my people)

Oh, turn the river into blood
Send the locust to devour
(These are my people)

Don't you know He said it ...

Background
Said it back then
Now He's saying it again
Let My people go
Cause these are My people

Lead
Oh, My people

Verse 2:
Now we're looking at the same situation
Over there in South Africa
They're using different names but it's still Pharoah
Satan is behind it all

Let us pray that they will heed our warning
For the wrath of God is on its way
There's still time for change and forgiveness
But judgment's drawing closer everyday

Lead
Whether black, whether white
They're all precious in His sight
(These are my people)

Not another holocaust
Where so many souls are lost
(These are my people)

You can't do as you please
No not with these
(These are my people)

I can hear the spirit say
Let them go and run away
(These are my people)

Said it back then
Now He's saying it again
Let my people go (2x)
