

# Possibilities

**The Wind and the Wave**

I'm gonna turn into nothing  
If I don't say yes to possibilities  
Trust fall into the cosmos and make a wish  
On every star in the galaxy

And all my life a diamond  
Is forming inside me

Some days we're so afraid  
And we jump anyway, jump anyway  
Some days when we don't feel safe  
Yeah, we jump anyway, jump anyway

I wanna learn all the lessons  
I wanna drop down to the bottom of the deep  
Sit there and have us a tea party and say hello  
To all the fish we see

And all my life this diamond  
Is forming inside me

Some days we're so afraid  
And we jump anyway, jump anyway  
Some days when we don't feel safe  
Yeah, we jump anyway, jump anyway

Take my hand and count to three  
Don't look away. No, don't let go of me  
I won't let anything bad happen to you  
My diamond on the inside  
My diamond on the inside

Some days we're so afraid  
And we jump anyway, jump anyway  
Some days when we don't feel safe  
Yeah, we jump anyway, jump anyway
