

# You Belong With Me

## The Wind and the Wave

Don't know where we're going  
Only where we been  
Trying to shake them old bad habits  
And change the shape we're in

Sometimes it don't need fixin'  
This tender heart of mine  
Throw your shit in the trunk  
And let's go get drunk on two dollar white wine

We only go around once  
That's a guarantee  
Just like Tom says we're running down a dream  
And nothing's easy  
But it's plain to see  
Oh baby, you belong with me

It was a shot in the dark  
That forever changed my life  
That's the way it goes  
Just like dominoes we fall into the light

A lover like no other  
You took me to the ground  
Throw the bag in the car  
We don't gotta go far till we're nowhere to be found

We only go around once  
That's a guarantee  
Just like Tom says we're running down a dream  
And nothing's easy  
But it's plain to see  
Oh baby, you belong with me

We only go around once  
That's a guarantee  
Just like Tom says we're running down a dream  
And nothing's easy  
But it's plain to see  
Oh baby, you belong with me

Yeah nothing's easy  
It's plain to see

Oh baby, you belong with me  
Oh baby, you belong with me  
Oh baby, you belong with me
